Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 18 November 2003.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

1. This action is in response to the amendment received on November 18, 2003.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Kojima'625.

Kojima'625 discloses the invention including a chopper folder for a rotary press for folding signatures having a pair of folding rollers "30", a prime mover not shown numerically (see col. 2, lines 32-33), a crank arm "16a" fixed to an output shaft of the prime mover, a blade holder (not shown numerically) held in position via bearings "20a" and "20c" (see Fig. 1), chopper blade "13", and a guide unit via linear feeding crank mechanism "B1" for restricting motion of the blade holder such that the blade holder reciprocates only in a linear direction perpendicular to a conveyance plane. Also, as can be seen in Fig. 6, the prior art German application No. 2247707 discloses a device for driving a folding knife having a slider crank mechanism "A" with a crank arm "4" attached to a crank shaft "3", a slider "6" with a linear guide "7" necessary for the linearly feeding crank mechanism, folding rollers "10", a folded object "W", and a folding knife "8" connected to the slider to be vertically moved.

Allowable Subject Matter

Art Unit: 3721

3. Claim 2 is allowed.

Response to Arguments

4. Applicant's remarks have been fully considered but they are not deemed persuasive. Applicant's contends that Kojima or the German application No. 2247707 does not show or suggest a blade holder onto which is attached a linear slider. Examiner asserts that a reference anticipates a claimed invention when all the features are disclosed. In this instance case, in view of Kojima, it would have been obvious to one having ordinary skills in the art to have provide a blade holder at the vicinity of "13" supported via bearings "20a" and "20c" for the purpose of holding in position the chopper blade "8". Thereby, even that Fig. 6 does not specifically state that the chopper blade "8" is held by a blade holder wherein the blade holder is attached to the linear slider "6", it is deemed that a blade holder is holding in position the chopper blade "8", thereby providing a connection between the chopper blade "8" and the linear slider "6".

5. For the reasons above, the grounds of rejections are deemed proper.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

7. A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 3721

however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
